

Manage Your Dog's Pulling with No Pull Harnesses

Every walk and every minute can't be spent training with your puppy or dog. Sometimes you just want to take a walk. Plus your puppy or dog needs to have some free time while on leash to explore and take in the world. While you are training your dog not to pull on the leash, front clip no pull harnesses can be a great management tool. Here are a few of the brands that I like and use.

Freedom Harness

This has great adjustments so it can be adjusted to fit most dogs. It can be used as a back clip, front clip, or with a double-ended leash. It is the highest rated harness that sits lower on the chest by Whole Dog Journal. You will need to order this online.

The double-ended leash

With both the Freedom Harness and the Balance Harness, you have the option of using a double clip leash. It gives two points of connection which can help to manage very large and very strong dogs. <a href="http://www.petexpertise.com/dog-gear/dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull-dog-harnesses/no-pull

Balance Harness

This also has great adjustments and it sits up higher and around the neck which can help with the harness sitting too low on the dog's chest. Overall highest rated by the Whole Dog Journal. You will need to order this online.

Easy Walk

This is a very common front clip harness, the least expensive, and it is available at most pet/feed stores locally. It does not have great adjustment so it doesn't fit well for some dogs. It also tends to rub under the front legs which can bother some dogs. However, it does work well for a lot of dogs.
